

ROHIT KANDPAL

Senior Frontend Developer

rohitkandpal125@gmail.com | +91 9870920879 | linkedin.com/in/rohit-kandpal-903960153 | Noida, India

PROFESSIONAL SUMMARY

Senior Frontend Developer with 6+ years of experience building scalable, high-performance web applications using React.js, Next.js, and TypeScript. Proven track record delivering enterprise-grade solutions for global clients including Deloitte and Bajaj Finserv Health. Experienced in Agile environments, leading junior developers, and bridging frontend systems with complex backend APIs. Known for translating business requirements into clean, maintainable UI architecture.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, Redux, Tailwind CSS, Jest, React Testing Library, Node.js, Express.js

Developer Tools: Git, GitHub, VS Code, Webpack, Vite, Postman, Jira, Figma

Practices: Agile/Scrum, REST APIs, JSON Schema Design, Code Review, Component Architecture

PROFESSIONAL EXPERIENCE

RhoHyve AI Labs Pvt. Ltd.

Jan 2026 – Present

Senior Frontend Developer | Noida, Uttar Pradesh

Placed by RhoHyve AI Labs Pvt. Ltd. as a dedicated frontend resource within Deloitte's engineering team.

Outstaffed to: Deloitte Touche Tohmatsu Limited

- Developed and delivered new features for a large-scale Tax & Customs Authority web platform, improving regulatory compliance workflows for enterprise end-users.
- Diagnosed and resolved critical frontend bugs, strengthening application stability and reducing reported UI issues across production environments.
- Architected and standardized JSON data structures for API request/response payloads, improving data consistency and reducing integration errors between frontend and backend services.
- Actively participated in daily Scrum ceremonies and sprint planning, ensuring transparent progress tracking and on-time delivery of sprint milestones.
- Mentored 2 junior developers through regular code reviews, pair programming sessions, and technical guidance, elevating overall team code quality.

Webuters Technologies Pvt. Ltd.

Feb 2022 – Dec 2025

Senior Software Engineer | Noida, Uttar Pradesh

Contributed to Webuters' own SaaS product (Studio.ai) and was outstaffed to Bajaj Finserv Health as a dedicated frontend resource.

Product: Studio.ai

- Architected the full application from scratch including authentication (magic link login, Google OAuth, secure logout), establishing a secure and scalable user access foundation.
- Built advanced pagination (infinite scroll + numbered navigation) and structured a reusable component library, reducing development time for new features by improving code reusability.
- Implemented real-time content editing inside an iframe with live preview updates, significantly improving the content authoring experience.
- Developed a custom AI-powered chat assistant enabling users to create and modify website content through natural language interactions, including dynamic image replacement.

- Collaborated closely with backend and QA teams to deliver a bug-free, production-ready product, maintaining high standards across the full delivery lifecycle.

Outstaffed to: Bajaj Finserv Health Limited (Feb 2022 – Jun 2023)

- Partnered with the Hospital Squad team to build responsive, accessible web interfaces for hospital operations, translating design wireframes into performant production code.
- Applied performance optimization techniques (code minification, caching, image optimization) monitored via Google Lighthouse, delivering measurable improvements in page load speed.
- Revamped the hospital portal UI, resulting in a 25% increase in user engagement and positive feedback from internal stakeholders and hospital staff.
- Conducted thorough frontend testing and debugging in collaboration with QA teams, ensuring integration stability and high code quality across releases.

Rubico IT Private Limited

Nov 2020 – Feb 2022

Software Engineer | Haridwar, Uttarakhand

- **Project:** Virtual Combine:
- Translated complex client requirements into effective frontend solutions through structured requirement analysis and iterative design reviews.
- Participated in client stand-up calls and flow diagram sessions, ensuring alignment between technical implementation and business expectations.
- Built intuitive UI screens for athlete profiles, login, and edit forms using React.js, enhancing overall application usability.
- Implemented robust client-side data validation to maintain data integrity and prevent input errors across form-heavy workflows.

QA InfoTech Software Services (Acquired by Qualitest)

Jan 2020 – Oct 2020

Software Engineer | Noida, Uttar Pradesh

- Developed React.js UI components contributing to a responsive, user-friendly web application as part of a structured internship program.
- Integrated frontend components with RESTful backend APIs, collaborating with senior engineers to ensure data accuracy across the UI.
- Managed application state using Redux and Context API, ensuring data consistency across complex multi-component flows.
- Participated in daily Agile stand-ups, gaining hands-on exposure to professional software development workflows.

ACHIEVEMENTS & AWARDS

- Employee of the Quarter (EOQ) – Q2 FY 2024, Webuters Technologies
- Employee of the Month – August 2022, Webuters Technologies

EDUCATION

Amrapali Institute of Technology and Science

Aug 2016 – Oct 2020

Bachelor of Technology – Computer Science & Engineering | Haldwani, Uttarakhand
